

**West Norfolk
Training today's young people for tomorrow's technology**

COVID 19 Update

Open Road will remain open to provide the support needed to vulnerable young people and key workers. We will be working alongside schools to assist in anyway we can. We will be expecting young people to continue to attend as normal and will also be open to cover the Easter holidays and May holidays.

Those who have been provided with school transport should continue to access this via the school.

Any new young person that wants to attend can still register and come to the centre.

Any change will be publicised via social media and our website.

Please stay safe.
